# Pristine

Diamond-Peel Microdermabrasion.  
Like No Other.

## The Pristine™ Microdermabrasion System

Pristine™ offers aesthetic practitioners the most advanced exfoliation system, with applications for both facial and body treatments, providing patients with results they can **see** and **feel**.

Designed to improve the overall appearance and quality of the skin, Pristine™ exfoliates the outer layer of the epidermis to treat a variety of skin conditions ranging from aging skin due to sun exposure, acne, scars tissue and stretch marks.

Based on the dual mechanisms of **exfoliation** and adjustable **vacuum stimulation**, the Pristine™ system exfoliates dead cells from the skin surface, cleaning the pores from the inside out and stimulates local blood flow and collagen production. The treatment renders a **firm, fresh** and more **even complexion** that continually improves over time. The Pristine™ treatment is free of irritations and any discomfort, allowing patients to benefit from a fully customizable, clean aesthetic procedure that is relaxing and enjoyable and, most importantly, delivers **results from the first treatment**.

## The Diamond Advantage

For almost a decade, the Diamond Peel has been widely renowned as the ultimate method in microdermabrasion and has been the preferred aesthetic treatment of leading dermatologists and aestheticians worldwide over conventional, crystal-based systems.

Viora pioneered the diamond peel revolution, to become the world's market leader in diamond peel microdermabrasion. The Pristine™ system features genuine, laser-cut diamond tips that offer an innovative approach to professional microdermabrasion treatments. This thanks to the crystal-free and hassle-free operation. Using the highest quality materials, aesthetic professionals can guarantee superb clinical results while generating a great return on investment for their business.

The Pristine™ microdermabrasion system stands at the forefront of diamond peel treatments, eliminating all the disadvantages associated with conventional systems to offer practitioners significant professional and business advantages:

- **Safe treatments**
- **No mess**
- **No clogging**
- **Vast treatment options**
- **Minimum consumables**
- **No risk of damaging sensitive areas**

## Pristine™ - The Clear Cut Advantage

- **Offers the World's widest treatment variety** - 13 diamond tips varying in size, shape & coarseness grades customized for various skin types and symptoms.
- **High quality, reliable device** - manufactured at the highest industry standards.
- **Silent operation** - comfortable, relaxing treatments.
- **Industry-leading vacuum strength** - most powerful motor on the market.
- **Treatment accuracy** - custom tips designed for hard-to-reach areas.
- **Treatment possibilities** - diamond tips treat areas where crystal-based devices can not.
- **User friendly** - quick set-up and easy operation.
- **Safe treatments** - risk-free treatments, for patient and practitioners.
- **Visible results** - improved skin texture and complexion from the first treatment.

## Experience the Power of Pristine™

One of the main strong points of choosing Pristine™ lays in its practicality as the ideal business savvy choice.

Designed with the practitioners in mind, the Pristine™ system is the ideal business-minded choice. Pristine™ provides an all encompassing tool for all your professional microdermabrasion needs with the largest tip selection on the market for unmatched exfoliation accuracy, effectiveness and ease of use. Treatments with Pristine™ are clean and hygienic and completely free of harmful substances and irritants.

The Pristine™ system offers all the advantages of microdermabrasion, in one comprehensive reliable device that enables better treatments with visible results that guarantee practitioners with patient satisfaction.

## The Ultimate Business Solution

- **Medical grade equipment** - highest quality components deliver silent operation, industry-leading vacuum strength & ergonomic hand piece design for easy use and maximum comfort.
- **Low operational costs** - no ongoing consumables to buy or dispose of.
- **Guaranteed minimal downtime** - no ongoing servicing or maintenance required.
- **Highest return on investment** - time efficient treatments increase work capacity per day.
- **Complete aesthetic solution** - full face & body treatments so attractive they are sure to enhance and grow your customer base.
- **Must-have business essential** - one unique system that complements and completes all aesthetic applications ranging from IPL to lasers, peels and more.
